Description

Product Description: This 5-unit entry intercom system features a central monitor and two door cameras. The system is designed for easy installation and provides secure access to your premises. The monitor displays video feeds from the cameras and allows you to communicate with visitors. The cameras are high-resolution and provide clear images of the entrance area. The system is compatible with various intercom systems and can be used in a variety of settings, including homes, businesses, and schools. The monitor is made of durable materials and is easy to clean. The cameras are also durable and can withstand outdoor conditions. The system is a great way to improve your security and make it easier to manage your entrance.
